

CONTENTS *Cosmobiology*

	Page
Foreword	i
Introduction	1
Chapter 1. Why Cosmobiology	8
Chapter 2. Musical starting points	23
a. What is a tone	37
b. How does a tone work	43
c. Star and sound	55
d. Search for new musical ways	64
e. Practical elaboration	74
f. Color and sound	79
Chapter 3. Man arisen from the macro cosmos	79
a. Orientation	86
b. The horoscope houses as will region	90
c. The zodiacal signs as creating formative forces	102
d. Planets as transforming powers	104
Moon	105
Mercury	107
Venus	110
Sun	112
Mars	114
Jupiter	116
Saturn	118
Mystery planets:	
Uranus	119
Neptune	121
Pluto	129
e. Aspects as soul forces	131
Rhythms in connection to the Zodiac	142
f. The horoscope as a sound experience	147
Chapter 4. The star constellations as archetypal ideas	142
a. The plan of man and world	147
b. The three-foldness of the starry sky. Main roads.	154
c. Short historical description of the Earth	154

Survey table	155
d. The Northern starry sky	158
1. Polar star constellations	
Dragon	
Little Bear / Dipper	161
Cepheus	164
Swan / Northern Cross	167
Lyre	169
Polar star constellations and trees	171
2. Circle of Heroes	174
Hercules	175
Northern Crown and Serpents Head	177
Bear Tender, Hunting Dogs and Hair of Berenice	179
Great Bear / Big Dipper	180
Emptiness on Heaven's Mountain. Lynx and Giraffe	182
Waggoner	184
Perseus	186
Northern Triangle	188
Andromeda and Cassiopeia	189
Pegasus and Foals	192
Dolphin	194
Eagle and Arrow	196
Snake Tamer and Serpent's Tail	197
e. The Southern starry sky	199
1. The path of the life flow along the Southern Milky Way	200
Orion and Hare	
Little Dog	202
Big Dog	203
Unicorn, Dove	205
The Ship Argo	206
Big Water Snake, Chalice and Crow	208
Centaur, Southern Cross, Wolf and Fly	211
Southern Triangle and Altar	212
2. Other loose constellations along the Milky Way	214
Easel	
Passer and Set Square	
Telescope and Southern Crown	215
3. The path up along the hereditary flow;	
Christ's path	216
Flood Eridanus and Phoenix	
Oven, Watch, Goldfish and Net	218

Whale and Southern Fish	221
Crane, Toucan, Peacock and Bird of Paradise, Sculptor and Indian	224
Little Water Snake	228
Octant and Chameleon	229
f. the zodiacal star constellations as form gestures	230
Aries	231
Taurus	232
Gemini	234
Cancer	235
Leo	236
Virgo	237
Balance	239
Scorpio	240
Sagittarius	241
Capricorn	242
Waterman	243
Fishes	245
Chapter 5. Substances as coagulated sound	248
a. Chemistry and alchemy	
b. Chemical elements as coagulated sound	253
1. Non-metals	
Hydrogen	254
Oxygen, Carbon	255
Nitrogen	256
Phosphor; Sodium and Potassium	257
Aluminum, Halogens	258
Calcium, Magnesium	259
Silicon	260
Sulfur	261
Others	262
2. Metals	262
Silver	263
Mercury, Copper	264
Gold, Iron	265
Tin	266
Lead	267
c. The formation of compounds	268
d. Chemical compounds	270
e. Chemistry and music	272

Chapter 6. Cosmobiology - Some examples	279
a. The cell	
b. Development of the animal	282
c. Development of the plant	290
Chapter 7. Methods of sonic research in Goethean science	296
a. Introduction	
b. Basic exercises	297
1. Approach from movement	
2. Approach out of communal singing	298
3. Approach out of rhythm	300
c. Some applications and elaborations	301
d. Other possibilities	306
Appendix; Tables of star positions in relation to the Zodiac	308
Notes and book references	334
Index	338
